Course Description:

In the dynamic and demanding environment of SNFs/NFs, accurate and comprehensive documentation is paramount. This presentation is designed to equip healthcare professionals with the essential skills and knowledge needed to create supportive and thorough documentation for managing elopement risk and incidents. Participants will be equipped to navigate the complexities of documenting the elopement risks and incidents and leave with a solid understanding of the regulatory landscape, enhanced communication skills, and practical strategies for creating comprehensive and supportive documentation. This presentation aims to empower healthcare professionals in SNFs/NFs to provide the highest quality of care while maintaining the integrity and accuracy of their documentation.

Learning Objectives

1. Participants will be able to recognize and articulate the key elements that should be included in the documentation related to elopement risks and incidents.
2. Participants will recognize the implications of incomplete or inaccurate documentation on facility liability and ensuring compliance with applicable laws and regulations.
3. Participants will develop effective communication skills for documenting elopement risk management interventions collaboratively within the interdisciplinary team.
