Proactive Medical Review and Consulting

Course Description:

This series provides a forum for discussion of industry hot topics for Administrators in 2023. Format will include presentation and group discussion forum with opportunity to pre-submit questions and scenarios based on actual facility issues and concerns. An online networking forum is available to attendees for topical discussion. This session will provide an overview of the facility assessment process and how to use the facility assessment to guide facility operations. You will learn what must be included in your facility assessment and how it impacts your overall facility operation, as well as potential survey and enforcement implications for insufficient facility assessment completion.

Learning Objectives:

1. Recognize the key concepts of the facility assessment in the SNF Requirements of Participation
2. Identify the actions necessary for compliance with the facility assessment regulations
3. Describe the required elements of the facility assessment
