Course Description:

This 6-week webinar series runs March – April 2023 and focuses on skill building for serving effectively as the Director of Nursing with an emphasis on effective leadership and staff engagement, nursing operations and systems of care for common conditions treated in the LTC setting. Guidance will include strategies for avoiding common deficiencies, staff training/competency, performance improvement and QA activities targeting QM areas, fundamentals of SNF/LTC reimbursement and oversight of MDS performance and promoting 5-star quality. This session will provide an overview of daily responsibilities and expectations as we examine a day in the life of an effective DON.

Projected Learning Outcomes/Course Objectives: At the conclusion of each session, the learner will:

1. Review common day-to-day responsibilities of the DON
2. Describe processes for nursing systems oversight
3. Implement an effective strategic planning process

Course Content

15 minutes	Review of common daily and weekly responsibilities
15 minutes	Review of common monthly and quarterly responsibilities
10 minutes	Strategies for effective planning and task completion
15 minutes	Ongoing nursing systems oversight
5 minutes	Closing Comments/Q&A

Target Audience: Nursing Leadership
